

GERALDY

Transport of pigeons

Your pigeon would choose Gerald

The number one in pigeon transportation worldwide

Klaus Gerdly is a successful pigeon fancier and a specialist in pigeon transportation.

Klaus Gerdly, the owner of Gerdly KFZ GMBH has been involved in the pigeon sport since 1976, after taking over the pigeons from his father. Since then he has been very successful in pigeon racing. The results at all levels are outstanding. He has won many championships in his club, the local district and nationwide, some of these have been won several times. Ace pigeons and first prizes are won on a regular basis.

Based on the combination of passionate pigeon fancier and a master in the motor body building business, it was a logical step for Klaus Gerdly to start building pigeon transporters, more than twenty years ago. The quality of these transporters, no matter whether it is an articulated trailer for 6,000 pigeons or a training trailer for 100 pigeons, is unequalled worldwide

In the Gerdly Company, located at Schmelz are 35 employees who are committed to both maintaining and further improving the high quality of the pigeon transporters, which are the most modern and up to date in the world. These people will do everything to meet the individual requirements of their clients.
