

## SAHPA Benzing live result (2026)

Benzing have kindly produced (at no cost) for SAHPA members “SAHPA Live Adelaide”. The SAHPA (at no cost) have been given access to the electronic content, allowing the SAHPA to use in calculating their own result.

On purchasing Benzing Live members will be asked to join “SAHPA Live Adelaide”.

Should the member accept, his times and results will show on the Benzing Race Result in *real time*.

It is the member’s responsibility to ensure his race programme codes match those on the SAHPA web site.

The times showing on the Live result will be transferred to the SAHPA result and when uploaded will show on the SAHPA Result.

Should a member with Live not wish to join “SAHPA Live Adelaide” then their times and results will need to be calculated by your club official.

Any questions or queries contact Tom Tirrell, “SAHPA Live Adelaide” Administrator.

## Live Evaluation Directions 2026

Ensure the correct coding (first three characters match SAHPA Master Sheet)

N.B. If they **do not** match your time will NOT TRANSFER AUTOMATICALLY therefore it will have to be manually entered.

**Club Races:** (owners to temp evaluate or fully evaluate their clock within one hour of clocking).

Two hours (approx.) after leading Live result pigeon initial transfer to SAHPA result will take place. Follow up transfer will occur three quarters of an hour after sunset.

**SAHPA and SALDC Races:** Evaluate your clock with Home Evaluation Card before half an hour after sunset on day of the race. 2+ day races again evaluate half an hour after sunset.

Transfer of Live times will occur three quarters of an hour after sunset.

## Benzing Live Club Input

1. Please ensure that the flyer’s birds are entered into the correct race and coded correctly. The race code must match the code on the master copy on the SAHPA web site.
  - a. If it is not coded correctly the programme will not identify it and the flyer will need to manually enter results via the club official.
  - b. If the club / operator selects Race 1 for instance, again because the code does not match the master the results will not transfer and the flyer will manually enter results via his club official.
2. When there are two races on the same race day please hamper the birds in the order of the race programme.
  - a. For instance Marree Open and Marree 5 Bird Race
    - i. Hamper Marree Open birds first
    - ii. Hamper Marree 5 B birds after the Marree Open birds.

N.B. I cannot stress the importance of the first **three** characters in the Race Name as these are needed for the flyer’s information to be transferred to the SAHPA result.

**MAIN POINTS: Must have codes as per Master Sheet. Three characters as per sheet. Basket in order of race program where multiple races on the same day occur. Club races temp or fully evaluate within one hour of clocking. SAHPA and LDC temp or fully as per instructions above.**
